Overall Expectations

Feel free to copy the suggested expectations from the Liftoff Team Activity document if your group agrees to them. Be sure you have also covered the following:

Expectations we recommend having for your group in addition to your list

- Ask for help when needed before falling behind on deadlines
- Be willing to help each other instead of displaying an "it's not my job" attitude
- Be flexible to assist with group needs
- Consistently communicate about where you are at with the project via Team Slack Channel
- Attend all group meetings, communicating if you need to miss a class ahead of time
- Treat it like a job, not like a typical group project
    - You will be working on a project that may mimic how you will work on a dev team
    - If you consistently do not show up to work or are not doing the tasks that you committed to completing, you may be removed from the course.

Communication (how will your group communicate?) Via slack - Zoom/Discord for group activities.
Giving Feedback (how will feedback always be communicated and where will it be shared?) Trying to keep feedback limited to web meet up times.
Conflict Resolution (when there is conflict within the group, what will need to happen for it to be resolved) Communicate with each other and if there is an issue - bring to Sammie.
Workload (how will you ask for help, how will you divide up tasks?)

1. Java - Mal, Andrew
2. Javascript - Keyona, Jay
3. APIs - Mal, Andrew
4. Database/SQL - Mal, Andrew
5. React - Keyona, Jay
6. HTML&CSS - Keyona, Jay
